## Projects

### Personal Website

[github.com/mand0ng/personal-website](https://github.com/mand0ng/personal-website)

- Responsive web application designed to showcase my personality, knowledge, and experiences
- Built using Next.js, Flask, PostgreSQL, Socket.IO, and Express.js

### Fitness Web-App

<https://fitness-app.emmanuelpedroza.com/>

- A comprehensive fitness application that generates personalized 30-day workout plans. By analyzing user-provided metrics such as weight, height, age, and fitness level, the AI constructs a progressive training regimen with accurate load management for optimal results.

### ***Liquor Sign – Maker***

<https://liquor-sign-maker.emmanuelpedroza.com/>

- An innovative AI-powered tool that automates the creation of professional liquor signage. Users can upload an image, and the system leverages generative AI to produce dynamic, high-quality designs by outputting live React code for the final layouts.
